Information is subject to change without notice. Northern Telecom reserves the right to make changes in design or components as progress in engineering and manufacturing may warrant. This equipment has been tested and found to comply with the limits for a Class A digital device pursuant to Part 15 of the FCC rules, and the radio interference regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

SL-1 and Meridian 1 are trademarks of Northern Telecom.

Revision history

January 29, 1990

Standard, release 1.0.

February 28, 1990

Standard, release 2.0.

October 19, 1990

Standard, release 3.0.

December 1, 1991

Standard, release 4.0. This document is reissued to include technical content updates. Due to the extent of the changes, revision bars are omitted.

December 31, 1992

Standard, release 5.0. This document is reissued to include information on system options 21E and 81, update the “Regulatory notices” chapter, and add information on auxiliary equipment grounding. New information and technical changes are noted by revision bars in the margins.

April 1, 1993

Standard, release 6.0.

April 1, 1994

Standard, release 7.0. This document is reissued to include technical content updates and information on option 61C. New information and technical changes are noted by revision bars in the margins.

December 1994

Standard, release 8.0. This document is reissued to include technical content updates and information on option 51C. New information and technical changes are noted by revision bars in the margins.

July 1995

Standard, release 9.00. This document is reissued to include international information to create a global NTP, option 81C information and floor plan figure, and minor text edits. Changes are noted by revision bars in the margins.

December 1995

Standard, release 10.00. This document is reissued to include minor edits. Changes are noted by revision bars in the margins.

August 1996

Standard, release 11.00. This document is reissued to include minor edits. Changes are noted by revision bars in the margins.

October 1997

Standard, release 12.00. This document is reissued to include minor edits. Changes are noted by revision bars in the margins.
